PROFILE

Results-oriented third-year Computer Science student seeking an On-the-Job Training opportunity to apply theoretical knowledge in an professional setting. Demonstrates strong leadership, communication, and teamwork abilities, with a capacity to adapt quickly to new environment. Highly motivated and committed to delivering quality contributions while gaining practical experience.

EDUCATION

Don Mariano Marcos Memorial State University
South La Union Campus
Bachelor of Science in Computer Science 2023-PRESENT

Aringay Senior High School
Technical-Vocational-Livelihood-Information Communication Technology (TVL-ICT) 2021-2023

CERTIFICATE AND SEMINARS

- Computer Systems Servicing NC II
Technical Education and Skills Development Authority | 2023
- DETECT, DEFEND, AND PROTECT: Introduction to Cybersecurity
University of the Philippines Diliman - Technology Management Center, Office of the Chancellor | 2024
- Introduction to Artificial Intelligence (AI) and Machine Learning (ML) for SUCs
University of the Philippines System - Information Technology Development Center (ITDC) | 2025

WORK EXPERIENCE

Aringay Local Government Unit
Work Immersion Trainee MAY 2023

PROJECTS

- Bato Bato Pik Game (Object-Oriented Programming Project)**
- Developed a two-player game using Java applying object-oriented programming principles
 - Implemented game logic, user input validation, and win-condition algorithms
 - Collaborated with a team to design class structures and program flow
- Bite: Point of Sale System (Imformation Management Project)**
- Designed and developed a database-driven POS system using Microsoft Access
 - Created tables, forms, queries, and reports for sales tracking and transaction management
 - Implemented automated sales computation and record storage to improve transaction accuracy
- PillMate (Human Computer Interaction Project)**
- Developed a mobile-based reminder application to manage and track medication schedules
 - Implemented notification alerts and user-friendly interface to improve medication adherence
 - Designed responsive UI components using React Native and Tailwind CSS to enhance usability and accessibility
